

5. Bookstore

Hello. This is Toni again. Place your cursor on the **Bookstore** sign and you will see a menu of the BEing There books to be found there, and a browser for a complete list of books.

The **Bookstore Browser** is a listing of all the books carried in the Bookstore, and a synopsis of the content of each one. Only books screened and recommended by BEing There are included here. Be sure to leave your suggestions for books you'd like to see in the bookstore, or for books you would like to be discussed in the book club, in the suggestion box, which is found under the Membership menu at the Frontdesk.

The **Bookstore** menu also includes the books published by BEing There. These books, especially, will help you in your own pursuit. With the purchase of any BEing There book, you also will receive a study guide, to help you understand and integrate the skills presented there.

You'll also find a helpful discussion about one of these books occurring in the **Gazebo**, right now. I will show you that area in section 10 of this tour.

Believe it or not, everything we have looked at so far is free and available to the public! Now, I will introduce to you the member resources, special events and forum discussions.

I will show you where to locate them, how to find out what topics are being discussed, and how to get the most from these discussions. This is where you get to share and explore, question and learn, challenge and support. This is where significant growth can occur.
