

10. The Gazebo

Hi, I'm Toni. Here in **The Gazebo**, you will meet with other members who, together, form a book club.

If you cannot locate The Gazebo in the Lobby picture, then it is probably behind this tour window. You can grab this window in the title bar and move it aside. Or, you can test the menu after you close this window.

When you can, put yourself in the picture, and imagine what it feels like to be in this Gazebo.

What a great place for a book club to meet! Just look around at the mountains and meadows! Smell the clean, fresh, mountain air! Hear the magnificent sounds of nature! BEing in nature helps put into perspective the real purpose in life. When the divine is all around, it seems much easier to pursue it.

There is so much to learn about the pursuit of Higher Consciousness, the emotional skills needed to BE in your Personal Truth, and about specific areas of applying these skills, that this discussion is sure to constantly challenge any previous understanding you had.

This is a constantly changing study group you will want to get to know well. Of course, it will help if you have read the book being discussed. You can order a book in The Bookstore, in the lobby.

When you order a book from BEing There Publications™, you also receive a study guide for that book, which arrives by periodic e-mail, just like the short course does. This will greatly enhance your experience in this book club.

To continue the tour, click on Section 11: The Member Initiated Discussions Hall, or The MID Hall. We will meet there next, back inside.
