

### 13. The Library of Enlightenment

Hi, this is Toni. You are now entering one of the long-term assets in being a member of BEingThere.net, the Library of Enlightenment.

Here, you will find a wealth of information about Higher Consciousness and Enlightenment. This section alone would be well worth the subscription fee!

Like all libraries, this library serves as an archive for valuable resources. Archives are like treasure chests. The value of some things is never lost, regardless of how aged and forgotten they might become.

All the information series that BEingThere.net gives to people at various times are kept here for reference. These include:

- all of the Short Courses
- the Study Guides for the BEing There books
- the Introductions to each Discussion
- all of the Consciousness Lessons

Note: There is one additional archive that is not in the Library. It is the review of books in the book browser, in the Bookstore. This archive remains free and available to the public.

In addition to these invaluable archives, there is another resource here. If you are looking for a certain type of business or service, you can go to the Business Directory first. You have the opportunity to do your business with other seekers in the world.

Browse around the library. Get to know the one-of-a-kind resources you will find here.

I will look forward to seeing you soon, in the wide variety of forum discussions and activities. Thanks for joining me on this tour of BEingThere.net. Goodbye for now!
